

KARTHIKEYAN V

DATA ANALYST

Certified Power BI Data Analyst with 5 years of experience turning data into actionable insights. Proficient in SQL, data modeling, and Python for reporting, automation, and dashboard development. Skilled in stakeholder collaboration to deliver clear, impactful, data-driven solutions.

Work Experience

DATA ANALYST

SYNTHESIS HEALTH CARE LLP

SEP 2024 - TILL NOW

- Designed and deployed 15+ enterprise Power BI dashboards covering the end-to-end Revenue Cycle Management lifecycle, including billing, claims, denials, payments, collections, and AR, enabling leadership to monitor revenue performance and operational KPIs.
- Engineered scalable ETL and data-processing pipelines using Python and SQL, automating ingestion, transformation, validation, and loading of high-volume healthcare datasets while reducing manual reporting effort and improving data accuracy.
- Conducted payer, denial, AR, and payment analysis to identify revenue leakage, underpayments, denial trends, and collection opportunities, supporting improved reimbursement and cash flow.
- Built analytical frameworks to track Clean Claim Rate, Denial Rate, Net Collection Rate, Days in AR, First Pass Resolution, Payment Lag, and Revenue Recovery, translating operational data into actionable business insights.
- Automated recurring report extraction, file processing, and data workflows using Python, SQL, and Power Automate Desktop, significantly reducing repetitive manual tasks and improving reporting turnaround time.
- Partnered with Operations, Finance, and RCM leaders to develop KPIs, dashboards, and actionable insights.

ASSOCIATE ENGINEER

VIRTUSA CONSULTING SERVICES

AUG 2021 - SEP 2024

- Supported and maintained Power BI dashboards and reports for banking operations, ensuring data accuracy and on-time delivery.
- Used SQL to analyze transactional data, troubleshoot data issues, and support production incidents.
- Monitored scheduled Power BI refreshes, data pipelines, and report performance, resolving failures within SLA.
- Collaborated with business and IT teams to enhance Power BI reports, data models, and visualizations for operational insights
